MEDICATION AVAILABILITY

The pharmacy maintains a formulary of over 4,000 medication lines covering all principal therapeutic categories: cardiovascular, endocrine, anti-infective, oncology supportive care, psychiatric, neurological, respiratory, and paediatric formulations.

GENERIC SUBSTITUTION POLICY

Where a prescribed brand is temporarily unavailable or a bioequivalent generic is substantially more cost-effective, the dispensing pharmacist will advise the patient and proceed only with explicit consent. Patients who wish to retain the originally prescribed brand are entitled to do so.

CONTROLLED SUBSTANCES

Schedule I medications, including opioid analgesics and benzodiazepines, are dispensed solely against an original consultant's prescription, which is retained by the pharmacy in compliance with applicable regulations. A maximum of a seven-day supply is dispensed per transaction unless the prescription carries co-signature from the relevant department head.

HOME DELIVERY SERVICE

Prescription delivery is available within the Colombo District on Monday to Friday. A minimum order value of LKR 5,000 applies. Orders may be placed by calling 0112-456-780 or through the patient portal. Same-day delivery is available for orders received before 1:00 pm; next working day for orders received thereafter. Controlled medications and items requiring cold-chain storage are not eligible for the delivery service.

DRUG INFORMATION HELPLINE

A licensed pharmacist is available for medication counselling and drug interaction queries at Ext. 3100 during pharmacy operating hours. Queries regarding drug interactions, missed doses, and side effect management are addressed at no charge.
